

Subject: Equipment Maintenance – Autumn 2019

Please note that we are proceeding with planned shutdowns of equipment for annual maintenance work that we will start in early September 2019, and that will last for a period of about six weeks. During this period, the flare will be used as needed.

These shutdowns for annual maintenance work require a large number of workers from various trades. As a result, you may possibly notice more traffic than usual.

These activities are part of our plant's regular annual maintenance and repair program, designed to ensure the safe, efficient functioning of our equipment.

In keeping with our commitment to the community, the work will be carried out in such a way as to minimize any nuisances and the impacts they may have.

Thank you for your understanding.

For further information, you may contact the refinery at any time at 514-640-8000.

Important note:

All our notices to the community are posted on the website of the Association Industrielle de l'Est de Montréal (AIEM). You may register on the AIEM website at www.aiem.qc.ca if you want to automatically receive the email notifications from the member industries.

“This notice stems from our social commitment as a member of the AIEM, and its aim is to inform members of the neighbouring community about any incidents likely to have an impact outside our site.”
