Suncor Energy completes maintenance on Terra Nova FPSO

St. John's, NL (Nov. 14, 2011) - Suncor Energy reports today that it has completed a planned maintenance shutdown at the Terra Nova Floating Production, Storage and Offloading (FPSO) facility ahead of schedule.

During the maintenance work, which began on Oct. 15, production on the Terra Nova FPSO was shut down as Suncor focused on completion of the work in a safe manner. The facility has now returned to normal operations.

Planned maintenance work, which is part of the normal course of operations at Terra Nova, is designed to support safe, reliable operations.

Suncor Energy Inc. is Canada's premier integrated energy company. Suncor's operations include oil sands development and upgrading, conventional and offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. While working to responsibly develop petroleum resources, Suncor is also developing a growing renewable energy portfolio. Suncor's common shares (symbol: SU) are listed on the Toronto and New York stock exchanges.
