

Burrard Terminal Maintenance Advisory

The Suncor Burrard Products Terminal is situated on 430 acres of land of which 175 acres are used for terminal operations.

- The Upper Terminal, located in Port Moody, contains the fuel processing units, main tank farm and the fuel blending facilities.
- The Middle Terminal is located on the south side of the Barnet Highway in Burnaby. It contains the secondary tank farm and truck facilities.
- The Lower Terminal is located in Burnaby, Port Moody and along the Burrard Inlet. It contains the marine and rail facilities.

Gasoline, diesel, ethanol, and bio-diesel arrive at the terminal via pipeline, marine tankers, trucks and rail.

Maintenance activity on site

Beginning October 17, 2022, we will be conducting planned maintenance work at the Burrard Terminal.

During this time, you may notice increased flaring and noise levels around our site. All work will be done within the guidelines and requirements of current bylaws.

We expect this work to be complete by October 21.

At Suncor, we value the relationship we have with our neighbours and will work to minimize the impact of this activity.

For all media inquiries, please contact Suncor Media Relations at 403-296-4000.

We apologize for any inconvenience this may cause and thank you for your patience.
