

Burrard Terminal Traffic and Noise Advisory

The Suncor Burrard Products Terminal is situated on 430 acres of land of which 175 acres are used for terminal operations.

- The Upper Terminal, located in Port Moody, contains the fuel processing units, main tank farm and the fuel blending facilities.
- The Middle Terminal is located on the south side of the Barnet Highway in Burnaby. It contains the secondary tank farm and truck facilities.
- The Lower Terminal is located in Burnaby, Port Moody and along the Burrard Inlet. It contains the marine and rail facilities.

Gasoline, diesel, ethanol, and bio-diesel arrive at the terminal via pipeline, marine tankers, trucks and rail.

Maintenance activities on site

Beginning March 5, 2024, we will be conducting repair work on the roof of the pumphouse located near St. Johns street.

This work will cause additional noise in the area however, all work is being done within the guidelines of local bylaws.

We expect this work to be completed within a couple of weeks.

At Suncor, we value the relationship we have with our neighbours.

We apologize for any inconvenience this may cause and thank you for your patience.
