

Subject: Planned equipment maintenance

Date: March 10, 2020

Please note that the Suncor Montreal Sulphur Plant will be proceeding with planned equipment maintenance. The work will begin on March 10 and will last approximately seven weeks.

These activities are part of our plant's regular maintenance and repair plan, intended to ensure the safe and efficient operation of our equipment.

In the first few days of activities, it is possible that smoke will be visible on one of our chimney stacks. In keeping with our commitment to the community, the work will be carried out in such a way as to minimize any impacts.

Thank you for understanding and patience.

For further information, you may contact our Environment, Health and Safety group at 514-645-1636.
