

Subject: Planned equipment start-up

Date: October 5<sup>th</sup> 2020

Please note that the Suncor Montreal Sulphur Plant has completed its regular maintenance, and we will be starting up different equipment over the next few weeks.

Consequently, on October 6<sup>th</sup>, 2020, smoke may be visible from one of our chimneys stacks. In keeping with our commitment to the community, the work will be carried out in such a way as to minimize any nuisances and the impacts they may have.

These activities are part of our plant's regular maintenance and repair plan, intended to ensure the safe, efficient operation of our equipment.

Thank you for understanding.

For further information, you may contact our Environment, Health and Safety group at 514-645-1636.
