

MEADOW CREEK EAST PROJECT

2022 Annual Project Report

June 9, 2023

1.0 INTRODUCTION

In accordance with conditions 5.25 through 5.27 of the Meadow Creek East project approval (PIA-003) Suncor Energy Inc. (Suncor) is providing the information below required for the 2022 Annual Project Report.

2.0 PROJECT UPDATE

The Meadow Creek East project was approved by the Alberta Energy Regulator (AER) on March 27, 2017.

2022 Activities

No tree clearing, disturbance or reclamation activities were completed in 2022 under the Meadow Creek East Project Approval.

Proposed 2023 Activities

No tree clearing, disturbance or reclamation activities are planned in 2023 under the Meadow Creek East Project Approval.

Meadow Creek East is being re-evaluated as part of a regional strategy to sustain production at end of Base Mine life. Our ambition is to preserve regulatory approval for Meadow Creek East to allow for synergies with timing of regional production needs.

3.0 COMPLIANCE

Since receiving approval on March 27, 2017, Suncor has been working to identify and action regulatory compliance requirements. Suncor will continue this work through 2023. As no activities have been conducted since receiving the approval, there are no audits, inspections or compliance actions to report at this time.

4.0 LAND/ENVIRONMENTAL

There has been no update to the information required by the AER for Land/Environmental since project approval was received. No new environmental sensitivities have been identified for the Meadow Creek East project.

5.0 APPROVAL

There have been no changes to the project scope since the approval was received.

Condition 8.4 of the approval states that an amendment must be applied for if construction of the project has not commenced by December 31, 2023. Suncor intends to submit a letter to the AER requesting to defer the construction date to March 26, 2027.

Meadow Creek East
2022 Annual Project Report

As per Schedule 5, Table N of the approval, an Annual Conservation and Reclamation Report is to be submitted by March 31, annually. The report must follow Specified Enactment Direction (SED) 001: Direction for Conservation and Reclamation Submissions (AER, 2016). As per SED 001, a report for the period of January 1 to December 31, 2022 was to be submitted if construction or land reclamation activities took place. As there were no reportable activities, a letter was submitted to the AER on January 25, 2023 indicating that an Annual Conservation and Reclamation Report would not be submitted for the year.

Suncor continues to engage with project stakeholders including Fort McMurray No.468 First Nation, Chipewyan Prairie Dene First Nation, Heart Lake First Nation, the Regional Municipality of Wood Buffalo, Fort McMurray Metis Local #1935, Willow Lake Metis local, Conklin Metis Local and the Willow Lake Community Association. No new project concerns have been identified since the approval was received.

6.0 CLOSURE

Please contact the undersigned if you require further information on the Meadow Creek East project.

Regards,

Rahul Jain
