

Base Mine Extension Project Update

November 2024

Thank you for your continued interest in Suncor's Base Mine Extension Project (the BMX Project). Suncor is continuing to consider a range of bitumen supply options, one of which is the BMX Project. We have determined additional time is required to assess these available bitumen supply opportunities.

As such, we would like to share that we have submitted a formal request to the Impact Assessment Agency of Canada to adjust the time limit for the Impact Statement phase of the BMX Project. Suncor is requesting a timeline adjustment of 46 months, thereby extending the current Impact Statement submission deadline from February 28, 2025, until December 28, 2028.

Through our engagement with Indigenous communities and stakeholders on the BMX Project, Suncor has received valuable feedback about our current and potential future operations. We will look to apply this feedback as we move forward to consider all options as part of our bitumen supply strategy, including the BMX Project.

How to keep in touch with us

If you have questions or feedback about this update, please don't hesitate to contact the BMX Project team at basemineextension@suncor.com or 1-855-600-5561 (toll-free).
