

Combustion Device	Airline Heater - Houdri Catalytic Cracker (HCC) Start-up
Date	May 19, 2023 18:00 - May 20, 2023 14:00
Sulphur Content (wt%)	0.48%
Amount of liquid fuel used	8.75m3 (36.3 kg of Sulphur)
Explanation of the Emergency	Start-up of HCC after maintenance event
Description of measures to prevent recurrence	Increase reliability of HCC

Combustion Device	Airline Heater - Houdri Catalytic Cracker (HCC) Start-up
Date	Jan 23, 2024 17:00 - Jan 24, 2024 20:10
Sulphur Content (wt%)	0.00067%
Amount of liquid fuel used	18.5m3 of ULSD (0.212 kg of Sulphur)
Explanation of the Emergency	Start-up of HCC after maintenance event
Description of measures to prevent recurrence	Increase reliability of HCC

Combustion Device	Airline Heater - Houdri Catalytic Cracker (HCC) Start-up
Date	Nov 3, 2024 14:00 - Nov 6, 2024 22:00
Sulphur Content (wt%)	0.28%
Amount of liquid fuel used	34m3 (81.2 kg of Sulphur)
Explanation of the Emergency	Start-up of HCC after maintenance event
Description of measures to prevent recurrence	Increase reliability of HCC
